

Scavenge around Saturn

General Schema/NR Script: For today's challenge, each tribe is tasked to explore the galaxy (campus). You will do so by completing different tasks to collect puzzle pieces, but there is a twist! There are 6 puzzle pieces needed to complete the puzzle, but 12 different tasks! Each piece corresponds to two tasks that are connected through a common theme. For example: if a category is “located on BU’s campus” then every task that is located in on BU’s campus will reward tribe members with puzzle piece #3. The tricky part is, we do not reveal what these categories are. It is up to each tribe to try and figure out what the categories are in order to retrieve the puzzle pieces faster, or you can just try and go off luck!

In addition, each task will have a certain number of players that must complete it! This makes strategizing and communication very important.

Once all 6 pieces are found, two members from each tribe will try to solve the puzzle. First two tribes to solve the puzzle win immunity!

Prod Instructions:

Prod will be interspersed throughout the locations of the challenge, with one prod member responsible for each task. Prod members will distribute puzzle pieces to their corresponding tribes once tasks are completed. Prod members at stations must hide their pieces so players can not just look for the correct colors.

Tasks:

Clue	Task	Category	Prod Member	Location	Number of Players
Aliens are known for their love of the arts. Send two members to talk to an astronaut in the alien sculpture quad.	Prod member will hand players the riddle. Once players figure out the riddle, prod provides the piece. In the tapestry of night, I form a straight line, Three stars in alignment, a sight so divine. I'm	Riddle	TC	Law Quad	2

	<p>part of a hunter, strong and bold, In ancient tales, my story is told. With a bow and a shield, I stand in the sky, A cosmic connection that catches the eye. What am I?</p> <p><i>Answer: Orion's Belt.</i></p>				
<p>Chicken tastes like chicken even in space. Send three members to talk to an astronaut in the ship's mess hall.</p>	<p>Prod member will hand players the riddle. Once players figure out the riddle, prod provides the piece.</p> <p>From ancient myths, I take to the skies, A winged force of wonder, where dreams often rise. I gallop through constellations, swift and free, With a tale of adventure and bravery. My name echoes legends of heroes and lore, In the celestial realm, I'm forever adored. What am I?</p> <p><i>Answer: Pegasus</i></p>	Riddle	Sree	Curry	3
<p>If you take your helmet off in space, your head might expand. Talk to an astronaut in the location where two babies took</p>	<p>Just provide the piece</p>	In the fens	Kame	MFA Giant Baby Heads	2

off their helmets.					
NASA recently figured out that flowers can't survive in space. Talk to an astronaut frolicking in the biggest community garden around.	Just provide the piece	In the fens	Julia H	Fens community garden	2
We received an alien transmission. Decode the message and send one member to tell it to an astronaut in the right location. <i>aespc eysdrr</i>	Prod member will provide the piece once players repeat the phrase to them. Phrase - Space Ryders	Task requires you to decode a phrase to say to prod member at location	McKenna	Ryder Lobby	1
We received an alien transmission. Decode the message and send two members to tell it to an astronaut in the right location. <i>glaincarettic llgviae</i>	Prod member will provide the piece once players repeat the phrase to them. Phrase - Intergalactic Village	Task requires you to decode a phrase to say to prod member at location	Bella	IV	2
